

BC13 SOLAR LED BOLLARD LIGHT

Utilizes high-output LED technology.

IES lighting distribution data available.

This solar LED bollard light can be quickly and easily installed almost anywhere. Perfect for entrances, car parks, housing estates, footpaths, and driveways. May be used in either a residential or commercial environment. This LED bollard is made with an all aluminium body and a clear polycarbonate lamp shade. Light output is provided by twelve high intensity white coloured LED's within the circular lens section. In a dark location, this light fitting is capable of projecting light outwards and downwards several feet (360 degrees). Available in a choice of two sizes: small (84cm tall), or large (104cm tall).

BC13 SOLAR LED BOLLARD LIGHT

PERFORMANCE

- Typically illuminates dusk to dawn (subject to location).
- Automatically turns on at dusk and off at dawn.
- All aluminium body, satin black powder coated finish.
- Other colours available via large quantity orders only (white, brown, rust, or green).
- Illumination pattern is 360 degrees with projection of light down towards the ground and outwards.
- Light output is dark sky compliant, a full cut off light fitting.
- The small bollard is approximately 84 cm high.
- The large bollard is approximately 104 cm high.
- Main body is approximately 15 cm diameter.
- The clear, polycarbonate lampshade section is approximately 18 cm diameter and 20 cm high.
- The top light / solar panel section of the bollard is approximately 23 cm diameter.
- The base flange of the bollard is approximately 21.5 cm diameter.

LUMINAIRE

- Twelve super bright, high output white coloured LED bulbs.
- Each LED produces 8 Lumens.
- Light output is 96 Lumens
- Light output is equal to about 20-25 watts of incandescent lighting.

BATTERY

- 3 replaceable Ni-Cad rechargeable C-type batteries (1.2v 2800mAh) are included.

SOLAR PANEL

- High quality 2.5 watt solar panel.
- The solar panel is built into the top of the bollard.
