

PO11

Solar 'Balmoral' Double Lamp Post Light (With Heavy Duty 3M Pole)

Optional Accessory: SP02

TECHNICAL SPECIFICATIONS

Manufactured in an ISO9001:2000 'Quality Assured' facility.

PERFORMANCE

- Up to 10 hours illumination at night.
- Automatic dusk-to-dawn operation.
- Discrete on/off switch for manual over-ride.
- Aluminium construction with polycarbonate lampshade.
- Black coloured finish.
- I.P. 65 rating.
- Concave upper reflector and convex lower reflector within the lampshade housing, to enhance illumination output.

LIGHT FITTING

- Each lamp contains 51 super bright, high output LED bulbs.
- Light output is white through clear, vandal resistant, polycarbonate lampshade.
- Suitable for residential, and commercial applications, as well as for use in public areas.
- Each lamp section stands approximately 66cm (26") high (max.).
- The clear polycarbonate lampshade section alone is approximately 36cm (14") diameter (at its widest (top)) and approximately 28cm (11") high.
- Light output is approximately 75 watts for each lamp.

POLE

- Supplied with a heavy duty steel pole with a matt black powder coated finish.
- The pole is approximately 9.5' (285cm) high and has a welded base plate of approximately 1/3" (8mm) thick and approximately 10" x 10" (25cm x 25cm) square.
- The pole base has four pre-drilled elongated holes approximately 2cm (3/4") wide.
- The pole is approximately 76mm (3") diameter (O.D.) at the top and approximately 115mm (4.5") diameter at the base.
- The internal diameter (ID) of the round base (collar) of this fixture is approximately 78mm (3 1/10").
- This lampshade is approximately 58cm (23") high x 46cm (18") x 46cm (18").
- Entire lamp post (pole and lampshade) stands approximately 3.5m (11' 6") high.

BATTERY

- Each lamp includes a 12 Volt 9 Amp/Hr rechargeable battery (replaceable) inside the bottom of the lampshade.
- Life expectancy of batteries is around 2-3 years.

SOLAR PANEL

- High quality, discrete, integral, solar panel fixed flush into the top of each lampshade.
- Optional additional panels may be purchased for boosted solar power (see SP02).

INSTALLATION

- For use in dark locations at night time.
- Anchor kit is supplied for setting into new wet concrete.
- Alternatively, the pole could be bolted to an existing concrete pad using appropriate bolts (not included).
