LED LIGHT STRING
(OPTIONAL, ADD-ON LIGHTING FOR A NEW OR EXISTING SOLAR ILLUMINATIONS LIGHTING SYSTEM)

Add Festive Sparkle to Your Existing Solar Lighting System!

REMOTE CONTROL INCLUDED

Are you considering purchasing, or do you already own, a solar-powered lighting system from Solar Illuminations? Did you know you can easily add a string of LED lights to your system?

Community entrances, town & village greens, chruches, commercial facilities, and business signs often have the holiday spirit applied with Christmas trees. decorative garlands and wreaths. Why not make those decorations even more eye-catching with a string of LED lights powered by the same solar lighting system already illuminating your sign, street, trees, landscaping or car park?

Our long string of LED lights is ideal for many seasonal decorating applications, adding a festive touch without the need for a separate power source. Installation couldn't be easier! Simply plug the LED light string into the socket on your Solar Illuminations battery enclosure, and it will operate alongside your existing lighting. No connection to the mains required. When the Christmas season is over, just unplug the light string and store it away until next year.

It's a very simple, cost-effective, and convenient way to add a little extra festive cheer. Check out these features:

- **This pre-plugged light string is approximately 50M (170') long**
- **It contains 500 evenly spaced, safe, low-voltage, super-bright LEDs**
- **Remote control included for user colour/mode/dimming selection**
- **User selectable choice of warm white (3,000k) or multi-colour (RGB)**
- **11 selectable modes (4 different steady-on and 7 different blinking)**
- **4 selectable dimming modes (100%, 75%, 50%, and 25% options)**
- **Join up to two strings together or use multiple individual strings**
- **IP55 weather rated (for indoor or outdoor use)**
- **Includes 5M of cable as standard before the first LED light begins**
- **Other colours and lengths available by special order**
